# Domestic Discord.

Bliss has departed from the domestic hearthstone of one of Salt Lakes most second handed firms. He keeps a second hand store, and she keeps some other kin 1 of a store which she raised. It appears that she is afflicted with frequent attacks of the green eyed monster, and as he was tired of it he arranged some time back, to take his meals with, and have his washing done by a more congental female. Then the rage of Mrs. M. was kindled to seven times its original intensity, and she waxed exceeding wroth. Like a tigres; she sought out the Mining, Stocks and Other Markets lair of this new siren who had become the cook and wash, woman of Mr. M. And there in her own house she bearded her, and addressed her in epithets which the press would be highly blamed f r repeating. Then the flery-tyed mymidons of Marshal Phillips stapped in, prevented further coil, and led the offending female away captive. Whittemore, the flint-hearted minion of the law, represented the county, and endeavored to have a weak and hapless female punished for a little noise and bad language. But Lomax, the great defender of the frail and helps less ones, was there, and by his sage quotations from Lord Coke, Confucius, Dogberry, and other learned authorities, bridged over the danger that threatened his client, and if the is convicted at the hearing today will appeal her case to a higher tribunal.

## Returning to Provo,

It will prove a matter of regret to to 3 per cent lower. many that Dr. W. R. Pike has concladed to return to Provo, for which wednesday, and will immediately reopen his office there. The doctor has been a resident of Sait Lake about one year, and during that period has won and sustained a large and constantly growing practice, while he has made numerous personal friends. Not only will his pa city he takes his departure on sonal friends. Not only will his patrons and social acquaintences regret his going away, but his depaiture must prove a loss to the medi-cal fraternity of the city. We need not commend him to the good people of Provo and vicinity, for he is already familiar to them, through years of successful professional practice in Utah County.

#### Artists' Exhibition.

The exhibition of paintings by Utah actists will open next Saturin his power. All that remains is for the artists to attend to the details, and from the way they go about them, we believe the af-fair will be one that will make a mark in the development of art in Utah.

A committee has been appointed, of which Mr. Ottinger is the chairman, to receive the pictures, all of which must be delivered at ('alder's by Thursday next. The exhibition will be free to all, and the artists will be at some pains to see to the reception and comfort of visitors and Mr. Calder has promised to provide occasional music which will add to the pleasures of the affair. All those residents of Utah who have painted pictures worthy of such an

I smiled very considerably when reading the letter in your Sunday's issue, from "Engineer," about the "inconsistent ordinances," and thought he might also have mentioned something about "inconsis-

tent officers." Well, the Co-on-Shoe Factory Supt., Col. W. H. Rowe, has had two galvanized iron funnel shaped bonnets put on the iron smoke stacks, and the the whole nicely tarred, at a considerable expense. They look fine, quite an orn ment, after the style of a locomotive stack; and will doubtless satisfy the marshal, as fully complying with the ordinance. But the fun is here, that, although constructed with a metal disk or dish in the enlarged funnel. They are not spark arresters, in fact the chimney stacks are no better with than without them!!!
